SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT Compliance Status Report

equirements, complete this form and attach it to a ched to this form.

Facility ID (6-Digit):	L. Facility Name: EPS/LON PIRSTICS
	Section I - General Information
nly requirements, comp e attached to this form	To provide the compliance status of your facility with applicable federally enforceable requirements and identify other local-only requirements, completed compliance certification Form 500-A2. As appropriate, all submittals of Form 500-C2 as appropriate should also be attached to this form

Equipment verification: Review the first of penting applications, and either the preliminary Title V facility permit or the list of current permits to operate that the AQMD provided you, to determine if they completely and accurately describe all equipment operating at the facility. Attach a statement to describe any discrepancies PROCEDURES FOR DETERMINING COMPLIANCE STATUS

(y) Û

- į methods, and monitoring, recordkeeping and reporting (MRR) requirements that apply to any equipment or process (including equipment exempt from a permit by Rule 219) at your facility. Identify applicable requirements*: Use the checklist in Section II to identify all applicable and federally-enforceable local, state, and federal rules and regulations, test
- adjacent to the corresponding requirement as it applies to your particular equipment/process The potential applicable requirements, test methods and MRR requirements are identified and listed adjacent to each given equipment/process description. Cleek off each box

Note: Even if there is only one piece of equipment that is subject to a particular requirement, the appropriate box should be cheeked

دنو applicable requirements. It does not include recently adopted NESHAP regulations by EPA or recent amendments to AQMD rules. Do not add rules listed in Section V here. Identify additional applicable requirements*: Use Section III to identify any additional requirements not found in Section II. Section II is not a complete fist of all

FAX NO. :8189928982

- ļ., 1: Identify SIP-approved rules that are not current AQMD rules: Use Section IV to identify older versions of current AQMD rules that are the EPA-approved versions in by completing Form 500-D and is approved by AQMD apply. Note: Listing any requirement that does not apply to a specific piece of equipment will not provide the facility with a permit shield unless one as specifically requested that do not apply to a specific piece of equipment or process. Fill out Section III of this form and attach a separate sheet to explain the reason(s) why the identified rules do not Identify any requirements that do not apply to a specific piece of equipment or process: Also use Section II to identify any requirements that are listed in Section II but
- Section IV provided that the non-SIP approved rule in Section II is at least as stringent as the older SIP-approved version in Section IV the State Implementation Plan (SIP), and that are still applicable requirements as defined by IPA. The facility is not required to certify compliance with the items checked in
- Identify Local-Only Enforceable Regulatory Requirements: Use Section V to identify AQMD rules that are not SIP-approved and are not federally enforceable

~_}

- the applicable requirements, complete and attack born 500-C2 in addition to form 500-A2 with all applicable requirements, complete and attach Farm 500-A2 to certify the compliance status of the facility. If any piece of equipment is not in compliance with any of Determine compliance: Determine if all equipment and processes are complying with all requirements identified in Sections II and III. If each piece of equipment complies
- 11, Rule 201, Rule 201.1, Rule 202, Rule 203, Rule 205, Rule 206, Rule 207, Rule 208, Rule 209, Rule 210, Rule 212, Rule 214, Rule 215, Rule 216, Rule 217, Rule 219, Rule 220, Rule 221, Regulation III, Regulation V, Regulation VIII, Regulation XII, Regulation XV, Regulation XVI, Regulation XIX, Regulation XXI, Regulation XXII, and Regulation The following AQMD rules and regulations are not required to be included in Section II and do not have to be added to Section III. Regulation I, List and Criteria in Regulation
- Emission units adversely affected by the gap between current and SIP-approved versions of rules may initially be placed in a non-little V portion of the permit

Section III - Supplemental Identification of Specific Requirements

Complete this section only if there is a specific requirement (i.e., rule reference, test method, or MRR requirement) that is:

1. Listed for a specific type of equipment or process in Section 41 of this form & DOF's NOT pertain to a specific device at your facility*; OR.

 Is NOT Listed for a specific type of equipment or process in Section II of this form but it IS applicable to a specific device at your facility.

NOTES:

- 1. For any specific requirement, test method, or MRR requirement that is identified as "Remove," attach additional sheets to explain the reasons why the specific requirement does not pertain to the device listed.
- All boxes that are checked in Section II and any additional requirements identified in this section as "Add" will be used to determine the facility's compliance status. This information will be used to verify the certification statements made on Form 500-A2.
- 3. Do not use this section to identify equipment that is exempt from specific rule requirements. Your equipment is automatically considered to be in compliance with the rule that specifically exempt the equipment from those requirements.
- Listing any requirement that does not apply to a specific piece of equipment in this section will not provide the
 facility with a permit shield unless one is specifically requested by completing Form (500-D and approved by the
 AOMD.
- * If this section is completed as part of the initial Title V application & there is no device number assigned, refer to the existing permit or application number in this column.

FACILITY INFORMATION

Mail Application To: P.O. Box 4944 Diamond Bar, CA 91765

Tel: (909) 396-3385

www.aqmd.gov

The SCAQMD is required by state law, the California Environmental Quality Act (CEQA), to review discretionary permit project applications for potential air quality and other environmental impacts. This form is a screening tool to assist the SCAQMD in clarifying whether or not the project¹ has the potential to generate significant adverse environmental impacts that might require preparation of a CEQA document [CEQA Guidelines §15060(a)].² Refer to the attached instructions for guidance in completing this form.³ For each Form 400-A application, also complete and submit one Form 400-CEQA. If submitting multiple Form 400-A applications for the same project at the same time, only one 400-CEQA form is necessary for the entire project. If you need assistance completing this form, contact Lori Inga at (909) 396-3109.

Busine			to Appear on the Permit:	Facility ID (6-Digit):

	Yes	No	Is this application for:	
A.		X	A CEQA and/or NEPA document previously or currently prepare permit cannot be issued until a Final CEQA document and Notice of Determin	
B.		\propto	A request for a change of permittee only (without equipment mo	difications)?
C.		\propto	Equipment certification or equipment registration (qualifies for Rule	e 222) ?
D.		Ď	A functionally identical permit unit replacement with no increase	in rating or emissions?
E.	1	6	A change of daily VOC permit limit to a monthly VOC permit limit	?
F.		1	Equipment damaged as a result of a disaster during state of eme	rgency?
G.	\times		A Title V (i.e., Regulation XXX) permit renewal (without equipment n	nodifications)?
H.	y'''	×	A Title V administrative permit revision?	
I.		X	The conversion of an existing permit into an initial Title V permit	?
If "Yes date thi		I for any qu	estion above, your application does not require additional evaluation for CEQA	applicability. Skip to page 2, "SIGNATURES" and sign and
REVII	EW OF IN	PACTS	WHICH MAY TRIGGER CEQA	
Comple attach i	ete Sections it to this forn	I-VI by che	ecking "Yes" or "No" as applicable. To avoid delays in processing your application	on(s), explain all "Yes" responses on a separate sheet and
	Yes	No	Section I – General	
1.		×	Has this project generated any known public controversy regard generated by the project?	
		•	Controversy may be construed as concerns raised by local groups at public mewspapers or other periodical publications, local news programs, environme	neetings; adverse media attention such as negative articles in ntal justice issues, etc.
2.		7	Is this project part of a larger project?	
			Section II – Air Quality	
3.		グ	Will there be any demolition, excavating, and/or grading constru 20,000 square feet?	ction activities that encompass an area exceeding
4.		X	Does this project include the open outdoor storage of dry bulk s include a plot plan with the application package.	olid materials that could generate dust? If Yes,

¹ A "project" means the whole of an action which has a potential for resulting in physical change to the environment, including construction activities, clearing or grading of land, improvements to existing structures, and activities or equipment involving the issuance of a permit. For example, a project might include installation of a new, or modification of an existing internal combustion engine, dry-cleaning facility, boiler, gas turbine, spray coating booth, solvent cleaning tank, etc.

² To download the CEQA guidelines, visit http://ceres.ca.gov/env_law/state.html.

³ To download this form and the instructions, visit http://www.aqmd.gov/permit

	Yes	No	
5.		4	Would this project result in noticeable off-site odors from activities that may not be subject to SCAQMD permit requirements?
			For example, compost materials or other types of greenwaste (i.e., lawn clippings, tree trimmings, etc.) have the potential to generate odor complaints subject to Rule 402 – Nuisance.
6.		X	Does this project cause an increase of emissions from marine vessels, trains and/or airplanes?
7.	,	×	Will the proposed project increase the QUANTITY of hazardous materials stored aboveground onsite or transported by mobile vehicle to or from the site by greater than or equal to the amounts associated with each compound on the attached Table 1?4
		•	Section III - Water Resources
8.			Will the project increase demand for water at the facility by more than 5,000,000 gallons per day?
		\propto	The following examples identify some, but not all, types of projects that may result in a "yes" answer to this question: 1) projects that generate steam; 2) projects that use water as part of the air pollution control equipment; 3) projects that require water as part of the production process; 4) projects that require new or expansion of existing sewage treatment facilities; 5) projects where water demand exceeds the capacity of the local water purveyor to supply sufficient water for the project; and 6) projects that require new or expansion of existing water supply facilities.
9.		200	Will the project require construction of new water conveyance infrastructure?
		\sim	Examples of such projects are when water demands exceed the capacity of the local water purveyor to supply sufficient water for the project, or require new or modified sewage treatment facilities such that the project requires new water lines, sewage lines, sewage hook-ups, etc.
	-		Section IV – Transportation/Circulation
10.			Will the project result in (Check all that apply):
		\propto	a. the need for more than 350 new employees?
		1	b. an increase in heavy-duty transport truck traffic to and/or from the facility by more than 350 truck round-trips per day?
		X	c. increase customer traffic by more than 700 visits per day?
			Section V – Noise
11.		X	Will the project include equipment that will generate noise GREATER THAN 90 decibels (dB) at the property line?
			Section VI – Public Services
12.			Will the project create a permanent need for new or additional public services in any of the following areas (Check all that apply):
		X	a. Solid waste disposal? Check "No" if the projected potential amount of wastes generated by the project is less than five tons per day.
		X	b. Hazardous waste disposal? Check "No" if the projected potential amount of hazardous wastes generated by the project is less than 42 cubic yards per day (or equivalent in pounds).
REM	INDER: Fo	r each "Yes"	checked in the sections above, attach all pertinent information including but not limited to estimated quantities, volumes, weights, etc.

Se	ection I - Facility Information	n	
1.	Permit to be issued to (Busines	s name of operator to appear on permit): 2. Valid AQMD Facility ID (Available on Permit or Invoice Issued by AQMD):	
3.	This Certification is submitted with a (Check one):	a. Title V Application (Initial, Revision of Renewal) b. Supplement/Correction to a Title V Application c. MACT Part 2	
4.	Is Form 500-C2 included with th	is Certification? Yes No	
Se	ection II - Responsible Offic	cial Certification Statement	

I certify under penalty of law that I am the responsible official for this facility as defined in AQMD Regulation XXX and that based on information and belief formed after reasonable inquiry, the statements and information in this document and in all attached application forms and other materials are true, accurate, and complete.

Read each statement carefully and check each that applies - You must check 3a or 3b.

- 1. For Initial, Permit Renewal, and Administrative Application Certifications:
 - a. The facility, including equipment that are exempt from written permit per Rule 219, is currently operating and will continue to operate in compliance with all applicable requirement(s) identified in Section II and Section III of Form 500-C1,
 - i. except for those requirements that do not specifically pertain to such devices or equipment and that have been identified as "Remove" on Section III of Form 500-C1.
 - ii. <u>except</u> for those devices or equipment that have been identified on the completed and attached Form 500-C2 that will <u>not</u> be operating in compliance with the specified applicable requirement(s).
 - b. The facility, including equipment that are exempt from written permit per Rule 219, will meet in a timely manner, all applicable requirements with future effective dates.
- 2. For Permit Revision Application Certifications:
 - The equipment or devices to which this permit revision applies, will in a timely manner comply with all applicable requirements identified in Section II and Section III of Form 500-C1.
- 3. For MACT Hammer Certifications: N
 - a. The facility is subject to Section 112(j) of the Clean Air Act (Subpart B of 40 CFR part 63), also known as the MACT "hammer." The following information is submitted with a Title V application to comply with the Part 1 requirements of Section 112(j). (If Part 2 has not been submitted, you must submit 500-MACT Part 2 with this form.)
 - b. The facility is not subject to Section 112(j) of the Clean Air Act (Subpart B of 40 CFR part 63).

Acid Rain Facilities Only: Turn page over & complete Section III

Acid Rain facilities must certify their compliance status of the devices subject to applicable requirements under Title IV by an individual who meets the definition of Designated (or Alternate) Representative in 40 CFR Part 72.

Section III - Designated Representative Certification Statement								
1.	For Acid Rain Facilities Only: I am authorized to make this submission on behalf of the owners and operators of the affected source or affected units for which the submission is made. I certify under penalty of law that I have personally examined, and am familiar with, the statements and information submitted in this document and all its attachments. Based on my inquiry of those individuals with primary responsibility for obtaining the information, I certify that the statements and information are to the best of my knowledge and belief true, accurate, and complete. I am aware that there are significant penalties for submitting false statements and information or omitting required statements and information, including the possibility of fine or imprisonment.

Permit to be issued to (Business name of operator to appear on permit):

Mail Application To: P.O. Box 4944 Diamond Bar, CA 91765

Tel: (909) 396-3385

www.aqmd.gov

Use this form for all application submittals requesting an initial Title V permit or permit renewal. If you are applying for a permit revision, you may also use this form to have your exempt equipment listing updated prior to renewing your permit.

This form is designed to summarize all of the equipment at a facility that is exempt from AQMD permit requirements (e.g., I.C. Engines \leq 50 BHP, Boilers < 2 MM BTU/hr etc.). This equipment can be listed according to category. However, if there is a specific device that is vented to control equipment, then the equipment must be listed separately. Trivial activities listed on the back of this form or the Technical Guidance Document do not have to be listed on this form. Note: If your facility is in the RECLAIM program, it is <u>not</u> necessary to repeat any equipment currently listed in Appendix A of the RECLAIM permit.

Check box if facility is in RECLAIM program: Valid AQMD Facility ID (Available on Permit or Invoice Issued by AQMD):									
Provide Current Permit Issue Date (mo/day/yr):		Permit Revision No.:
